

GARDEN CITY REGIONAL AIRPORT EMERGENCY CONTINGENCY PLAN

Garden City Regional Airport has prepared this Emergency Contingency Plan pursuant to §42301 of the FAA Modernization and Reform Act of 2012. Questions regarding this plan can be directed to Rachelle Powell at Rachelle.powell@gardencityks.us. Garden City Regional Airport is filing this plan with the Department of Transportation because (1) it is a commercial airport or (2) this airport may be used by an air carrier described in USC 42301(a)(1) for diversions.

This plan describes how, following excessive tarmac delays and to the extent practicable, Garden City Regional Airport will:

- Provide for the deplanement of passengers;
- Provide for the sharing of facilities and make the gate (1) available at the airport; and
- Provide a sterile area following excessive tarmac delays for passengers who have not yet cleared United States Customs & Border Protection (CBP).

Garden City Regional Airport has facility constraints that limit our ability to accommodate diverted flights or maintain the airport's safe operation and strongly encourages aircraft operators to contact the Airport Manager (AMGR) at the number listed in AFD for prior coordination of diverted flights, except in the case of a declared in-flight emergency. Specific facility constraints include the following: lack of international passenger processing facilities, limited number of aircraft parking positions and limited terminal space for passengers. We will note these constraints in Garden City Regional Airport's Airport/Facility Directory record. During diversion events Garden City Regional Airport issues NOTAMs regarding its ability to accommodate diverted flights to ensure the safe and efficient operation of the airport and its ability to serve the civil aviation needs of the public during irregular operations events.

Airport Information

Name of Airport: Garden City Regional Airport

Name and title of person preparing the plan: Rachelle Powell, Director of Aviation

Preparer contact number: Office: 620-276-1190

Preparer contact e-mail: rachelle.powell@gardencityks.us

Date of submission of plan: May 31, 2022

Airport Category: Large Hub Medium Hub Small Hub Non Hub

Contact Information

In the event of diversion or other irregular operations events, aircraft operators should contact the Airport Manager (AMGR) at 620-290-3810 or rachelle.powell@gardencityks.us.

Plan to Provide for the Deplanement of Passengers Following Excessive Tarmac Delays

Garden City Regional Airport has limited equipment and personnel needed to safely deplane passengers from air carrier aircraft. We will utilize this equipment to deplane passengers as soon as practicable after receiving requests from such airlines at the contact number listed above. We will also provide coordination with airlines, ground handlers, fixed base operators and others who may have the necessary equipment and personnel to safely deplane passengers to airlines as soon as practicable after receiving requests from such airlines experiencing excessive tarmac delays at the contact number listed above.

Plan to Provide for the Sharing of Facilities and Make Gates Available in an Emergency

The gate at Garden City Regional Airport is under common use gate agreement to air carriers and is controlled by the airport. We direct our common use air carrier users to make gates and other facilities available to an air carrier seeking to deplane at a gate, to the maximum extent practicable.

Plan to Provide a Sterile Area for Passengers Who Have Not Cleared United States Customs and Border Protection

Garden City Regional Airport does not have international passenger processing facilities. We will coordinate with local CBP and law enforcement officials to identify suitable areas and procedures for establishing a temporary sterile area into which international passengers on diverted aircraft who have not yet cleared United States Customs and Border Protection can be deplaned. Once these efforts are complete, we will coordinate with local CBP officials to develop procedures that will allow international passengers who have not yet cleared United States Customs and Border Protection to be deplaned into these sterile areas to the extent practicable.

Public Access to the Emergency Contingency Plan

Garden City Regional Airport will provide public access to its emergency contingency plan through one or more of the following means:

- Posting in a conspicuous location on the airport website www.fly2gck.com
